TO PUNISH HEINZE LAWYER MOVE BY BAR ASSOCIATION AGAINST ROBINSON.

Was Convicted and Fined in the U. S Court for His Conduct in Copper Case—Judges of That Jurisdiction

The Bar Association has brought pro sedings for the punishment of Sanford Robinson, counsel for F. Augustus Heinze in the United Copper Company proceed-ings before the Federal court last sumier. The Appellate Division of the point a referee to take evidence in the copper case.

She copper case.

Einar Chrystie, counsel for the Ber Association, said in his petition to the count that Robinson was admitted to the New York bar in 1901 and joined the Bar Association in 1905, resigning last October. He alleges that Robinson has been guilty of deceit, malpractice and gross unprofessional conduct. He declares that last May, while the Federal Grand Jury was investigating violations of the statutes by "one Fritz Augustus Heinze and others," a subposan was issued to Tracy S. Buckingham which the fines and others," a subposan was in the offices of the United Copper Company when the deputy marshal for service.

I want it to go on record that I recommend to the Bar Association and will recommend to the Judges of this circuit that they forgive Mr. Robinson. It is better to erron the side of leniency. Be careful and eautious, Mr. Robinson.

Judge Lacombe in a letter to Robinson's counsel, which was also submitted to the Gourt, said that the impression made upon him by Robinson's conduct before the Grand Jury was that he was extremely saily and pigheaded." Judge Lacombe said that Robinson evidently had a very broad conception of the privilege of counsel, and said "I recall distinctly the blank look of consternation with which he received the statement that he should answer or stand committed for contempt. The Appellate Division also decided yesterday to appoint a referee to hear charges preferred by the Bar Association against Washington Smith, a lawyer, in which he is charged with fraud, deceit, malpractice and unprofessional conduct. In 1908 the McCall Company, fashion publishers, brought an action in the Supreme Court to compel Smith to pay over moneys in which Frederick W. Longfellow was appointed referee. Mr. Longfellow reported that Smith, who was employed by the fashion publishers on a weekly salary, took charge of the collection of the firm's accounts. The referee reported that Smith concealed from the company and appropriated to his own use \$1,626.

Smith denies appropriating any money. In another case against a lawyer the Court also decided to appoint a referee. Jewell Flower, a lawyer at 235 Broadway, is the accused.

The disbarment action against Flower is brought on the complaint of George Forbes of 300 East 125th street, who said that in September, 1906, he saw this adver-

Forbes said that he got a postal card from C. B. Thomson requesting him to call at 236 Broadway, where Thomson and Flower had an office together. Forbes met Flower, who told him Thomson had inserted the advertisement. The three men then entered into negotiations as the result of which Flower drew up a contract executed later by Thomson and Forbes. By this agreement they were to organize a realty company capitalized at \$25,000, which was to take over a parcel of land in Nassau county. Thomson was to get \$150 a month salary as president and Forbes the same as treasurer. Forbes was to have a guarter of the stock and a first mortgage on the property for \$1,000.

Forbes agreed to pay \$250 on signing the contract and \$750 more on the delivery of the mortgage. He said that Thomson represented that he owned the property absolutely free of encumbrances.

Forbes said that some time after the \$250 was paid Thomson represented that he had to cancel certain liens before he could give a clear title and needed \$500 more for that purpose. He said he reliesed to give up any more money to Thomson, but agreed to deposit the \$500 with Flower, as trustee, with the understanding that he would not pay it over unless the mortgage was delivered.

Some time later Forbes said he learned that Thomson never owned the property, and when he tried to get the \$500 back he said he found that Flower had paid part of it to Thomson and kept the balance him; self.
